

Environmental Officer

At The Midfield Group we are committed to the growth and sustainability of our suppliers, our company, customers, and the communities in which we operate as to supply quality Australian products throughout the world.

The Midfield Group is privately owned and operates a true 'Paddock to Plate' experience as we own farms, factories, and distribution as to ensure we retain control of the key elements of the process of getting livestock from paddock to plate.

We are currently seeking suitably qualified applicants for the role of **Environmental Officer** located in **Warrnambool**, Victoria.

About the role:

- Conduct monitoring, inspection, and auditing activities
- Using and maintaining field-based monitoring equipment
- Recording and compiling data from field instruments and laboratory reports into spreadsheets and databases
- Gather, analyse, interpret, and report environmental data for the site
- Assist with environmental incident investigations as required
- Implementation and verification of the business's environmental management system
- Support the development of site compliance reports required in association with our licenses to operate
- Compliance reporting, including NPI, NGERs, APS, EPA Licence/Exemption Certificate applications for all sites within the business
- Managing a diverse range of operational environmental issues
- Environmental monitoring
- Environmental report preparation and review
- Undertaking on-site environmental inspections
- Document management
- Providing input into the ongoing development and implementation of the site's Environmental Management System
- Liaising with operational personnel to develop better environmental practices on site and continuously improve environmental performance across the operations
- Developing and providing regular reports and updates on environmental performance and expectations in consultation with internal and external stakeholders
- Annual Environmental services review and business cases

About you:

- Completed or on the way to completing a tertiary qualification in Environmental Science, Engineering, or a related discipline
- Ability to deliver quality work within required deadlines
- Ability to work both independently and as part of a team
- Well-developed written and verbal communication skills
- High level of attention to detail and an ability to interpret data and problem solve
- Ability to undertake field activities
- Strong commitment and focus on achieving positive environmental outcomes
- Self-motivation and drive

What We offer:

- Remuneration based upon experience
- Full time permanent position
- Opportunity for career progression within our global organization
- Employee Assistance Program
- Employee discounts, free parking and on-site canteen

If you believe you are suitable for this position, please submit a current resume or directly contact us via email recruitment@midfield.com.au. Please note only shortlisted candidates will be contacted.

The Midfield Group are proud to be an Equal Opportunity Employer.
