

Refrigeration Technician

The Midfield Group has a position for a qualified Refrigeration Technician to maintain a 24 hour processing plant. Industrial refrigeration experience is essential to be successful in this position. Experience with Ammonia and an electrical qualification would be an advantage.

The following prerequisites will see you working in a challenging and rewarding position within our company:

- Enthusiastic Qualified Refrigeration Technician
- Prepared to work in a fast paced Industrial environment
- Prepared to work overtime

The ideal candidate will have:

- Relevant refrigeration trade qualifications and licences (ARCTick licence, restricted licence)
- Experience in refrigeration systems freon as well as secondary coolants
- Good computer skills with experience using SCADA advantageous

Key tasks and responsibilities:

As a hands-on role this position will be required to directly oversee day to day preventative maintenance, maintenance request tasks and breakdowns such as:

- Daily plant freezer and cool room temperature checks
- Maintenance request breakdowns, diagnosis and repairs
- Preventative maintenance on plant and equipment
- Services on local dairy farms and associated refrigeration equipment
- Working with various departments and areas onsite
- Quick response to breakdowns with the ability to prioritise tasks
- Be part of a rotating on call roster

Remuneration and conditions will be discussed at time of interview.

Please forward your current resume outlining relevant experience along with a cover letter to hr@midfield.com.au
